CAPG @ Vienna 2026

21st ICSMGE in
Vienna (June 2026)

CAPG will host a dedicated 30-minute session showcasing Outstanding Geotechnical Projects. This session will feature 5 to 6 selected presentations, each approximately 5 minutes in length.

Preparation Timeline:

Stage 1 – Call for Contributions (June 2025): Corporate Associates (CAs) interested in presenting are invited to contact the CAPG Chair directly. Submissions should include a brief description of the proposed project and highlight key elements demonstrating excellence in:

- ✓ Innovation
- ✓ Sustainability
- ✓ Advancements in geotechnical engineering practice

Stage 2 – Jury Formation (June–August 2025): A selection committee will be established to review and evaluate submissions. The jury will consist of at least six members, either official CAPG representatives or nominated delegates from CA member companies. This committee will oversee the voting process and secure the review of the proposed presentations.

Stage 3 – Evaluation (September 2025): Projects will be assessed based on:

- ✓ Innovation
- ✓ Sustainability
- ✓ Addressed challenges
- ✓ Additional criteria to be defined by the jury

Stage 4 – Announcement (October 2025): Selected projects will be officially announced in October 2025 and CA members will be requested to prepare their presentations.

Stage 5 – Presentation Development (November 2025 – February 2026): Selected CAs will prepare their presentations. A draft version should be submitted by December 2025 for review and feedback. Final presentations must be completed by February 2026.

Stage 6 – Presentation at ICSMGE (June 2026): The selected projects will be presented live during the Vienna conference. Additional high-quality submissions may also be featured on the CAPG section of the ISSMGE website, providing extended visibility for CA member contributions.

21st ICSMGE in
Vienna (June 2026)

5 CAs who have submitted their proposals:

- 1- GDS**
- 2- Huesker**
- 3- Menard**
- 4- UTS**
- 5- Tensar**

Selected projects are invited to prepare and submit their presentations in December for review and feedback.

CAPG @ Bulletin

Papers at ISSMGE Bulletin

- An invitation was sent to the Corporate Associates for contribution in the upcoming **ISSMGE Bulletin** editions [ISSMGE Bulletin | ISSMGE](#), a distinguished platform offering all Corporate Associate members the opportunity to showcase their notable, world-class projects to the global geotechnical community.
- The ISSMGE [Bulletin](#) is published quarterly (January, March, June, and September).
The latest issue, [Vol 19, Issue 3, September 2025](#)
- Each Corporate Associate can submit a small article (**1–3 pages**) about a project case study or a research highlight that illustrates latest innovation, promotes sustainability in geotechnical engineering, and inspires young geotechnical engineers about the industry's best practice. Submissions should be engaging, avoiding overly technical or confidential content and may include visuals, hyperlinks, QR codes, or video links to enrich the narrative.
- Featured in the ISSMGE [Bulletin](#), these contributions offer prominent visibility and foster knowledge exchange within the global geotechnical community.
- Submission to the Bulletin will be sent to the editorial team for publication.

About us

The Corporate Associate Presidential Group (CAPG) was founded in 2011 under the initiative of ISSMGE President Prof. Jean-Louis Briaud. Since its inception, CAPG has become the dedicated platform within ISSMGE that connects corporate associates, practitioners, and academics to advance geotechnical engineering worldwide. Our mission is to foster collaboration between industry and academia, promote technical excellence, and ensure the latest research is translated into practical applications that benefit infrastructure development and society. CAPG provides a unique forum where geotechnical professionals can share experiences, exchange knowledge, and highlight innovation in the field. What we do: - Organize panel discussions, workshops, and surveys on critical geotechnical issues (e.g., overdesign, sustainability, innovations). - Facilitate participation in international conferences and ISSMGE initiatives such as the Virtual Time Capsule and the Heritage Time Capsule. - Offer Corporate Associates the opportunity to present their expertise, showcase outstanding projects, and engage directly with global leaders in the profession. - Support technical platforms that drive innovation and address pressing challenges in geotechnical engineering. Member Benefits: - Visibility through ISSMGE's website, Bulletin, and Journal of Case History. - Opportunities to present and publish technical insights and project highlights. - Networking with leading experts, companies, and academics worldwide. - Active involvement in shaping the direction of the geotechnical industry. Our Vision: To strengthen the global geotechnical community by bridging the gap between research and practice, promoting innovation, and recognizing the valuable contributions of our members.
