

TC306 Conferences

In its meeting on July 8, 2020, TC306 decided to keep the same name for its quadrennial flagship international conference: Geotechnical Engineering Education, e.g. GEE 2020, GEE 2024. Each conference can have a subtitle, emphasizing thus its different focus or objectives.

Publication and Open Access Policy

In its role as conference organizer, TC306 adheres to the [Publication and Open Access Policy](#) of the ISSMGE.

Publication Ethics and Publication Malpractice Statement

In its role as Organizer of the Geotechnical Engineering Education conference series, TC306 is committed to ensuring the highest quality of the Conference proceedings.

Authors should assure the originality of their contributions, while providing the necessary citation/quotation, when including phrases or parts of the work of others in their papers. Re-use of third-party figures, tables and photographs may require permission by the Publisher depending on the Publisher's re-use policy. Plagiarism constitutes unethical academic behavior and is not accepted in any of its forms. The authors should be aware that their papers may be subject to plagiarism detection system during the review process.

Striving for the academic excellence of the Geotechnical Engineering Education Proceedings, the papers submitted are peer reviewed to make sure that the content fulfills academic standards. The submissions are also evaluated on the basis of proper use of terms and quality of writing.
